The Store That Saves You Money

Official Acknowledgment of Contribution To French War Orphans' Fund

Blairmore, Alberta,
July 11th, 1918.

The Editor,
Blairmore Enterprise,
Blairmore, Alberta.

Dear Sir:

Sometime ago you published a statement of certain monies which had been forwarded to French Consular General at Montreal as a subscription for the above fund.

We take much pleasure in enclosing herewith an interpretation of Official receipt received from Headquarters at Paris.

Publication of same will greatly oblige.

Yours very truly,

WEST CANADIAN COLLIERIES, LTD.

Per W. H. Chappell, Jr.,

Chief Accountant.

National War Orphans Association,
40 Quai D'Orleans,
Paris.

Dear Sir:

"We have the pleasure to gratefully acknowledge receipt of the amount 1500 Francs that you have been kind enough to send us for our little WAR ORPHANS, through the FRENCH CONSULAR GENERAL, MONTREAL.

We cannot express to many thanks for the generous contributions that you have unceasingly given to our undertaking, viz: the care of our dear HEROE'S ORPHANS."

We are hoping that in the future, as in the past, we may continue to enjoy your valuable support for the comfort of these little War Orphans whose numbers are continually increasing, but whom we can always provide for and educate as a result of the assistance so generously rendered by yourself and many others.

With the assurance of our gratitude and high consideration, we are,

Respectfully yours,

(Signed) Per PAUL FINAL,
Treas. War Orphans Assoc.

Chautauqua Committees Reorganize

A meeting of the Chautauqua general committee, was held at the Cosmopolitan hotel this evening, when a president and secretary-treasurer were appointed and sub-committees were chosen to conduct the preliminary arrangements incident to the coming of Blairmore's second annual Chautauqua. Mr. J. E. Gillis was unanimously chosen as president, Rev. W. T. Young as secretary, and Mr. F. M. Pinkney as treasurer. J. A. McDonald was elected chairman of the advertising committee, W. J. Bartlett chairman of the ticket committee, and Raoul Green chairman of the grounds and general arrangements committee.

The Chautauqua tent will likely occupy the same location as last season. The programme is really stronger than last season's and there is little doubt in the minds of the committee that this year's Chautauqua will be crowned with success.

General Story of Chautauqua Program

The attractions presented during the coming Chautauqua week fill all the requirements of a well balanced "way-time program." They offer both entertainment to relieve the tension of the mind, and information on war problems at home and abroad.

Dr. Salem G. Bland, eminent divine and lecturer of Winnipeg, Special Dominion Delegate to the International Conference of Lecturers in Washington in April, will be one of the chief lecturers of the week. Dr. Bland's subject on the second afternoon will be "Canada at the Crossroads," one of the most constructive war-time appeals upon the platform.

Another lecture of compelling interest is that given by J. C. Herberman on the fifth night, "Carry On." Mr. Herberman is one of the most forceful and eloquent lecturers on the platform. He is a man of restless enthusiasm and energy who is devoting his great speaking ability to presenting the vital issues of the war and urging every individual to "carry on" to the extreme limit of his ability. On the fourth afternoon, Dr. Y. Minakawa, Japanese scholar and orator, will deliver his great lecture "War and the Anglo-Japanese Alliance." As the world is on tiptoe awaiting developments in the far East, this authoritative lecture is particularly timely.

One of the most notable lecture engagements of the year is that of Serge Gibbons, of the Third Canadian Infantry, who will be at Chautauqua on the second night. This young Canadian tells one of the most thrilling tales of the war in his story of seven months spent in German prison camps.

Other lectures to appear during the week will be Julius Caesar Napier, returning on his journey in a new lecture on the Orient; Ida M. Blouin, native of New Zealand, in a splendid lecture on this "Land of Model Government" across the Pacific, and Capt. Wood Briggs of the Texas National

Guard, in a stirring patriotic message, "Playing the game."

The musical program this year seems superior to that of any Chautauqua program in the past. The big musical feature of the week will be the coming of the Chicago Ladies Orchestra on the fourth day in two concerts. This will be supplemented by the appearance of Ethel Lee Buxton, American soprano, as soloist.

To the Warwick Quartet has been given the honor of opening the week's program with two concerts on the first day. On the second day Vincenzo Giulietti, prominent Italian violinist, will delight all music lovers with two rare concerts. Assisting artists will be Martha Cook, soprano, and Ruth Gregg-Gibbotta, pianist and accompanist. Two other companies that will bring splendid and inspiring music to Chautauqua are the Hampton Court Singers, in two concerts on the third day, and the Glenn Wells Entertainers, in two programs of music and entertainment on the fifth day.

The closing night of the Chautauqua brings one of the biggest musical attractions of the week in the coming of the Kaffir Boys Choir. Five smiling little natives of South Africa, under the leadership of J. H. Balmor, F.R.G.S., and Miss Elsie Clarke of Rhodesia, constitute this unusual organization. For many years the Kaffir have been one of the most successful attractions on the Chautauqua platform. They will appear only on the closing night and will surely pack the tent to its outer edges.

An added attraction for children and adults alike is the Mother Goose Festival, staged by the "Hiddees" on the fifth night. This fantasy will be presented under the direction of the Story Lady, who will spend the entire week in town with the children.

Miss Katherine Stinson covered the distance from Calgary to Edmonton by airplane in two hours. The distance is 196 miles.

At last night's meeting of the town council, it was decided by-law to more rigidly enforce restrictions against animals roaming at large within the town. Elsewhere in this issue will be found a copy of the by-law which was passed, with the dissenting vote only of Councillor Michel Ross, who is the owner of a few quadrupeds that would be affected by the new drastic legislation. Another question that occupied the minds of the aldermanic body for a while was the damage being done to the river bridge on Sixth Avenue. The secretary informed the council that he had written the West Canadian Collieries, asking that they cooperate with the town in putting a stop to horses being driven across this bridge at faster-than-walk pace, but that he had received no reply. It was suggested as a means to the desired end to cord-roy the bridge, which it was thought would certainly put a stop to reckless drivers. No definite steps were, however, decided upon.

Fighting in the Holy Land

Position Were Reached in Daring Cavalry Charge

It was at Madaba, where the baptism of Christ is said to have taken place, that the British army forced a passage of the River Jordan and a small body of German troops on the night of March 21.

The crossing was attempted at three spots. The average breadth of the Jordan is thirty yards and even in the driest season the water flows are never less than three and a half to four feet deep. Both banks are lined with a thick jungle called by the Arabs "Ezra", and is the haunt of wild boar. It is traversed by very few tracks leading to the fords.

At two of the fords even men on horseback were unable to breast the general flow, while rafts and pontoons were swept away. The Turks, alive to the fact that the crossing had been attempted, sent fire to some dry scrub on the opposite bank, which lit up the waters all the way to the crossing. The British, however, were not deterred by this, and the current is swimming to the other bank with a rope, by means of which a pylon was pulled over, serving as a ferry for a sufficient number of men.

The British established a strong bridgehead before dawn. The Turks were not very numerous, but were plentifully supplied with machine guns, while the ground lent itself to defence. Beyond the bell of scrub through which it was necessary to cut one's way was a bare open space about five hundred yards wide and then a series of ledges, where the Turks were excoined in trenches with a perfect field fire in front of them. During daylight it was impossible to cross the lane.

After night had fallen the British, with their machine guns and machine gunners and capturing three Maxims and seventy prisoners.

"Wheeling to the left, the troops secured the opposite bank of the Ghaziyeh ford, and soon the line was pouring across, following close on the heels of the Turks, who made another stand at Shunetinnir, across the old caravan road leading to Es Salt.

There the troops were among the foothills of the mountains of Gilead, which rise a thousand feet from the Jordan plain. It was a short struggle, and the position was rushed, thirty-five prisoners were taken, falling into British hands, as well as four guns of which the teams were shot down by the British. Then the troops raced toward Es Salt, which was entered early in the morning. The salt is the centre of an important grain region which furnished the main supply for Jerusalem in the days of the "Turks". It is now again available.

Minard's Liniment Cures Tetter in Cows.

The Police Enforcing Food Laws. All over Canada municipal police authorities are enforcing the food regulations in a firm, vigorous manner. They are also enforcing the anti-foal law. There has been a great improvement on the streets of most of the Canadian cities since this law was passed. Fines of \$100 and costs have been imposed in Calgary, Montreal, Victoria, Saskatoon, Toronto, Port Arthur, Ottawa, Regina, Stratford, and many other points. Reports of fines and imprisonment.

A Case of Heredity

"No one understands it better than I that it is not to be considered as a disease. Your mother was a telephone girl before she married, and your father was a train announcer." Louisville Courier-Journal.

If one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

"I'm mighty glad they've got one of our boys in the allied army. Let's see, what's his name?" "Generalissimo, I believe."—Boston Transcript.

The Cause of Appendicitis Now Definitely Known

The commonest cause of appendicitis is constipation. Every doctor who has been successful in curing it knows this. When you require physic, get Dr. Hamilton's Pills. They are made from the private formula of one of the greatest physicians. Dr. Hamilton's Pills strengthen the stomach, regulate the bowels and prevent any tendency to constipation. In only one day you feel the tremendous benefit of Dr. Hamilton's Pills. By purifying the blood and cleansing the system they prevent headaches, lift depression and drive away weariness. In medicine and surgery Dr. Hamilton's Pills. Sold everywhere in 25c boxes, with "yellow cover" get the genuine.

The War and the Child

Killed by a Flying Fragment From a Stray German Shell

Here is just one small war story of a child that will stick in the memory of any who read it. A lively little French boy was busy helping his grandfather in the cottage garden, happy in the safety of some miles behind the fighting front. They were great companions of "childhood and age. A church army travelling van, an "old bus" came to a halt outside the garden gate.

With his legs astraddle, and his grubby hands on his hips the boy smiled a welcome at the driver—and so died smiling, being killed at the moment by a flying fragment from a stray German shell.

The church army worker picked up the small, broken body from the flower patch into which it had been flung. But the boy was dead; and he could find no words and no touch to say the sobbing of the old man by his side, whose work-worn hands sought plying for some sign of the joyful life that was gone.

Luxurious Hospital Train

A most up-to-date hospital train has recently been built by the Great Eastern Railway, England, for the United States Expeditionary Forces. To the visitor, the stately train, the comfortable lavatories for sitting patients, the elaborate kitchen, refrigerator, pharmacy, and store-room accommodation, and the thousand little "hotel" comforts—even down to ash trays and reading racks over each cot and a perfectly equipped modern bathroom—are a source of never-ending wonder.

War Barred Royal Guard

Specially Chosen Giant Soldiers of King Victor Prevented From Taking Part in Battles

Among the most unhappy men in Italy are said to be the giant soldiers of the King's Guard who are not permitted to go to the front and fight the other soldiers. The reason for this restriction is that these giant men could probably not be replaced if killed, injured or taken prisoner. They are chosen with the utmost care, not only as regards their habits and training, but for their height, the minimum of which is six feet.

"They begin when other men stop growing," according to a popular saying. Many of them are even seven feet in height. They are chosen from the carabinieri or military police, and must have absolutely unblemished records. Each newly enlisted man, just prior to remain for term of five years in the Guard after which he may or may not re-enlist. During that period also he may not marry.

The Guards and their horses are quartered inside the grounds of the royal palace on the Quirinal Hill. The Guard does sentinel duty inside the grounds when King Victor is in Rome and also at some companies him on state occasions, as that of March 14, 1912, when, as the king was going also to the Corneo to the tomb of his father in the Pantheon, the anachronistic Alaba fired twice and wounded Captain Lang, of the Guard, instead of the king.

Since the war began, although the king lives at the front and is subject to all its dangers, members of the Guard are to be seen now and then walking down the streets of Rome, attracting attention and admiration because of their immense figures and shining uniforms and also because of the staid and bespattered grey-green uniforms of soldiers on leave from the front trenches.

PAIN? NOT A BIT! LIFT YOUR CORNS OR CALLOSES OFF

No humbug! Apply few drops then lift them off with fingers.

This new drug is an ether compound discovered by a Cincinnati chemist. It is called "Freezone" and can now be obtained in the form of a small bottle shown at very little cost from any drug store. Apply a drop or two directly upon a tender corn or callus and instantly the soreness disappears. Shortly you will feel the corn or callus so loose that you can lift it off, root and all, with the "Freezone" bottle.

Not a twinge of pain, soreness or irritation; not even a redness of the skin, either when applying "Freezone" or afterwards. This drug doesn't cut the corn up or irritate the skin, it shrivels them so they loosen and come right off. It is so harmless it works like a charm. For a few cents you can get rid of every corn or callus or painful callosities on bottom of your feet, on the sides of your feet, on your fingers or toes. If your doctor hasn't your "Freezone" set, let him get a little bottle for you from his wholesale house.

Saskatchewan

Hail Insurance Rates

Will Be Four Cents an Acre on All Assessable Land

There will be no change this year in connection with the rates, indemnities payable, or the policies issued by the hail insurance commission of Saskatchewan, according to a statement made at the offices of the commission at Regina. The rate will be four cents an acre on all assessable land with maximum indemnity of \$500. There are 126 municipalities operating under the provisions of the Hail Insurance Act, and the commission starts this season with a reserve of about \$300,000. There will be 19 board companies writing hail insurance in Saskatchewan this season and the rates will be the same as last year, six per cent. for cash business and eight per cent. for credit policies. There was considerable discussion some time ago among hail underwriters in regard to advancing the rates, but no action to this end has been taken, except that in the Northern and Red River divisions the rates to 10 and 12 per cent, owing to heavy losses which they have suffered there in the last few years.

Relief from Asthma. Who can describe the relief from asthma suffering which follows the use of Dr. Kellough's Asthma Remedy? When the chest is so tight and gasping, that comes when its soft and gentle influence relieves the thickened, inflamed and congested condition of the lungs, and the patient is free from the asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Vernishing Time

The curfew tolls the knell of parting day.

The toiler wanders homeward to

He awakes through the doorway

Bright and gay.

But cannot find a place to hang his hat.

Strength of Merchants Bank is Set Forth in Report

Twenty Millions are Added to Assets and Current Loans

An increase in total assets amounting to almost twenty million dollars was set forth in the report submitted at the annual meeting of the Merchants Bank of Canada on the 15th of June. This increase, which brings the assets of the Bank up to the notable figure of \$146,037,844, was produced by an all-round increase in all branches of the Bank's liabilities to the public, net circulation advanced nearly three millions, and interest deposits advanced seven and three-quarter millions, and interest-bearing deposits eleven millions, while balances due to banks and correspondents abroad were the only item to show a decrease. The general expansion was at the exceptional rate of 10-15 per cent; for the year. Deposits grew at the rate of over 21 per cent.

Another important feature of the report pointed out the extent to which the Bank was successful in enlarging its current loans and discounts. The cash and ready realizable assets now total \$57,667,481 against public liabilities amounting to \$12,000,000. The cash and ready realizable assets are the result of the increased valuation of the commodities on which such loans are made. The Bank has been rigorously scrutinized, and the sum of \$400,000 was appropriated to the making good of any depreciation.

In spite of the expansion in current loans, the proportion of liquid assets to liabilities is still high enough for the most conservative requirements. The cash and ready realizable assets now total \$57,667,481 against public liabilities amounting to \$12,000,000. The cash and ready realizable assets are the result of the increased valuation of the commodities on which such loans are made. The Bank has been rigorously scrutinized, and the sum of \$400,000 was appropriated to the making good of any depreciation.

Notwithstanding the greatly increased loans, the Bank's profits continue to be on a very moderate scale considering the real size of the business. The net income for the year was \$1,236,680, being 17.66 per cent. on the capital of \$7,000,000. The net income includes \$7,000,000 of rest or reserve fund, by way of something of the undistributed profits of the year. The rate of earnings is therefore less than 18.8 per cent. Not all of this is paid to the shareholders, since a large amount is set aside for the formation of important services towards the winning of the war.

SUFFERED TWO YEARS WITH PIMPLES

Child Could Not Sleep Till Cuticura Healed.

"My little brother suffered for about two years with tiny red pimples. They appeared suddenly on his face and on his body but he had the greatest trouble under his skin. The skin was so sore and very sore and at the least touch he would give a howl of pain. A few seconds he would have to scratch, and he was not able to sleep."

A friend advised me to send for Cuticura Soap and Ointment. I second change, and I used three boxes of Cuticura Soap and four boxes of Ointment when he was healed." (Signed) Louis Frank, 746 City Hall Ave., Montreal, Que., February 2, 1916.

Keep your skin clear by using Cuticura Soap and Ointment for every-day toilet purposes.

For Free Sample Book by Mail address Post-Card to Cuticura, Dept. A, Boston, U.S.A. Sold everywhere.

Population of the World. In 1787 the population of the earth according to Busching, was about 1,000 millions; in 1800, according to Schuler, it was 1,100 millions; in 1833, according to Stein and Hochmann, 872 millions. In 1858 Dieckmann, 1,200 millions. In 1885 Koltz, in 1885 at 1,220 millions. According to the latest calculations the world is inhabited by 1,400 million human beings.

CONSTIPATED CHILDREN

Mothers if your little ones are constipated; if their little stomachs and bowels are out of order, if they cry a great deal and are cross and peevish, give them a dose of Baby's Own Tablets—the little medicine for little ones. The Tablets are a gentle but thorough laxative and never fail to right the minor ailments of childhood. Concerning them Mrs. Noble A. Pym, Esq., Secum, N.S. writes: "My baby was terribly constipated but Baby's Own Tablets soon relieved her and I now think them a splendid medicine for children. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The 'Dr. Williams' Medicine Co., Brockville, Ont."

Thickest Tree in World

It is said the largest tree known in thickness, is a partly decayed chestnut in Sicily, which is 60 feet across. The Mexican cypress and the oriental plane have reached 100 feet. This puts the California big tree and the baobab in the background by the big size of its trunk. The baobab is thickest in relation to height.

Money Orders

Skippers Make Fortunes

Few men have profited more by the war than the skippers and trawlers sailing out of Hull.

One skipper netted \$75,000 in two years, and another has received \$40,000 a year since the war began.

They have earned money by receiving, said a member of a local firm of trawler owners, referring to the present period of the North Sea.

Some of the skippers have retired on the strength of the fortunes they have made. Others have bought costly mansions, and one a house in Bridlington.

Evidence Crops Up Every Day

THAT DODD'S KIDNEY PILLS ALWAYS HELP KIDNEY DISEASE

Quebec Man Who Suffered From a Run-down System and Kidney Disease Finds Quick Relief.

Miguasha Point, Que., (Special).—More evidence crops up in this vicinity every day to prove that for run-down people there is no remedy so equal to Dodd's Kidney Pills. Among the many who have come forward with statements is Mr. Paul Landry, a well-known resident, whose testimony can easily be corroborated.

"It is with great pleasure that I write to tell you of Dodd's Kidney Pills are the best medicine that I have ever taken," Mr. Landry states. "When I commenced to take them there was not much hope for me. After taking four boxes I felt like myself again. I advise all persons who suffer from kidney disease to take Dodd's Kidney Pills."

Dodd's Kidney Pills are popular all over this country, because they not only cure the pains and aches of the different diseases springing from disordered kidneys, but also give new life and energy all over the body. They do this naturally. They cure the kidneys. Cured kidneys strain all the impurities out of the blood, and the pure blood carries nutrient instead of poison to all the nerves and muscles. You can see the necessity of a person Dodd's Kidney Pills. You hear of thousands who have benefited by them.

GET YOUR MONEY'S WORTH EVERY SEASON WITH A Cleveland Tractor

It will work in any weather—wet, hot, or cold. It is built for all around work in any season of the year. Its traction tread enables it to run on wet land in the early spring, or on the soft seed bed for harrowing and seeding; and it has plenty of power for belt work.

SAVE TIME, FEED, AND PLOW DEEP

Don't board-idle horses when the Cleveland Tractor will do better work at less cost. It will work 24 hours a day if necessary, requires very little attention—all the fuel tank and it is ready for work. It saves horse feed and the wages of hired men. It is a real one-man tractor.

See Demonstration of the Cleveland Tractor at All the Alberta Fairs

See our exhibit of Engines, Grinders, "Altoelectric" Lighting Plants, at Calgary and Edmonton Fairs; or mail the coupon and full information will be sent to you.

By-Law No. 8

Relating to the Control of all Cattle and Restraining Them From Running at Large Within the Limits of the Town of Blairmore

The Mayor and Council of the Town of Blairmore enact as follows:

1. In this By-Law the word "animal" shall mean and include horses, mules, or other animal of the equine species; bull, cow, or other animal of the bovine species; sheep, goat, and swine, of any age, description or sex.
2. No owner or other person having the care, custody or control of any animal shall suffer or permit such animal to be at large within the Town.
3. No owner of any person having the care, custody or control of any animal shall suffer or permit such animal to carry a bell or other noise-producing device within the Town.

Provided always that this does not apply to animals in immediate charge of their owner or other person or persons being driven directly through the Town from and to points without the Town.

4. Every person convicted of an offence against this By-Law shall be liable to a fine not exceeding \$25.00 and in default of payment of such fine and costs to imprisonment either in the House of Correction or in the nearest common jail within the Province for a period not exceeding fifteen days at the discretion of the Justice of the Peace or Magistrate trying the charge.

5. The operation of this By-Law, and every charge laid or conviction registered thereunder, shall be without prejudice to the operation of any other By-Law of the Town relating to animals, pounds or pound keepers, or to the right of any person or persons who may suffer damage from animals at large.

ENACTED in the Town Council this 11th day of July, A.D. 1918.

NOTICE

NOTICE is hereby given that I, Giacinto Santucci, of Hillcrest, in the Province of Alberta, intend to apply for a transfer of license from Arnold Martell, to myself, for the Hillcrest Pool Room, in the Union building, Fowler Street, Hillcrest. This transfer has been approved by Frank Lott.

GIACINTO SANTUCCI

Applicant

NOTICE

NOTICE is hereby given that Mark Sartoris, of Blairmore, in the Province of Alberta, intends to apply for a license to operate a pool room at Victoria Street, Blairmore. The application has been approved by W. A. Beebe.

MARK SARTORIS

Applicant

Some Satisfaction, Eh?

The other day we thought of giving three or four kids a nickel each to buy ice cream cones, and thus get rid of the kids. Next morning we saw one of the little girls and asked her to show us the ice cream, and the reply was that they didn't have any, but that mamma told them to put every nickel they could get hold of in the bank.

Fuel Rations For U.S. Householders

Washington, July 8.—Domestic consumers of coal in this country will be put on rationing under plans being put into operation today by the fuel administration to prevent a repetition next winter of the fuel famine which caused suffering over the country during the last cold season. House holders will be allowed only the amount of coal necessary to heat their homes to a temperature of 65 degrees and it is announced that those who fail to observe conservation rules and who waste will have only themselves to blame if they are without fuel before the cold season sets in.

Christmas Puddings For Canadian Boys

The Canadian War Contingent Association proposes to put up 100,000 Christmas Puddings for the men in the trenches to be delivered in London in time for the midwinter distribution for Christmas. The Hamilton Fruit Kitchen of the Canadian Red Cross Society has placed its plant and staff at the disposal of the Association, for this purpose, all expenses being met by the C.W.C.

The amount named will enable the Canadian soldier overseas being served a generous portion of delicious pudding on Christmas day.

The puddings will be put up in 100,000 small tins, each containing one pound and one-half ounce, and each tin being labelled with the compliments of the Society or individual making the contribution, but the Association must undertake to forward any puddings specially addressed to units or individuals.

Subscriptions for this fund should be sent to the Secretary, C.W.C., New Theatre Building, Calgary. The subscription list is only open for a short time, as all arrangements for making and despatching the puddings must be concluded almost immediately.

Will not help to remind our Canadian soldiers to the field of the friends at home at Christmas time, by sending in your contribution as quickly as possible.

Protect the Summer Hawks

To most people hawks are fowls and therefore the best to be shot at the first opportunity. It may, however, be interesting to know that many of these are among the most beneficial of birds.

The farmer has few better friends than the American Sparrow Hawk. This is one of the winter birds which kill the pest of the farmer's field, the locust.

The Marsh Hawk, which is to be seen long and when flying exhibit long, pointed wings and long, pointed tail.

Another friend, it usually flies low and beats about over the marshes, meadows, and open fields in search of mice, on which it almost wholly subsists. It seldom has the courage to attack the poultry yard, and can be trusted for the few grouse it takes.

There are four species of the Rough-legs that should be protected. They are: the Great Horned Owl, the Screech Owl, the Common Nighthawk, and the Broad-winged Hawk. When hunting they come lower down, and the Screech Owl, the Common Nighthawk, and the Broad-winged Hawk, they are most persistent gopher hunters. They remain in Canada only during the gopher season, and it is estimated that a family of two or three will destroy 100 gophers in the course of a season.

The Sharp-shinned and Cooper's Hawks and the Golden Eagle, a white-tailed hawk, 22 inches long, have done more than any other bird to earn for the laws a bad reputation.

These birds are not at all malicious, and are entirely on small birds, and the Golden Eagle, a white-tailed hawk, 22 inches long, have done more than any other bird to earn for the laws a bad reputation.

However, to kill friend and foe indiscriminately is the greatest stupidity, when a little trouble will enable one to distinguish between them.

The Canadian Government, Ottawa, has published a well illustrated bulletin, describing the birds of the prairie provinces and making clear the distinction between the different species.

One who has learned to distinguish the beneficial species from the harmful, the following rule for action can be given for the people of the southern prairie provinces: Protect the larger summer hawks, except those in the act of poultry-killing; and destroy the winter ones. In this way a few harmless hawks may escape and a few innocent ones suffer, but the results on the whole will be a great step in advance.

Several New York morning papers assert that evidence which has been obtained in connection with the department of justice investigation of the alleged purchase of the New York Evening Mail by the German government, is said to show that the central powers set aside a fund of \$30,000,000, with which to buy American newspapers and circulate propaganda which it was hoped would bring about the overthrow of the German government.

We understand that he is showing no signs of improvement.

The Hun Cruelty Appeals Humanity

Inmate Hostility of the Men with Whom We are Struggling in This War Precludes Any Possibility of a Truce or Peace Arrangement.

Conceding an arrangement of Germany because of her treatment of prisoners of war, the London Daily Telegraph writes: It is not only that the Germans deliberately frustrate every obligation into which they enter, though that is bad enough, but that really appalling evidence of the inhumanity of the German race, capable of such action, could have been considered a part of civilized Europe. We ourselves can hardly understand the phenomenon, we can only state it as one of the paramount reasons why in this conflict of arms and in this solemn crisis of our fate, we are compelled to say that no truce or peace is possible with the German race.

The German character as we know it is due partly to an innate brutality of the race which has always been in evidence, though for diplomatic reasons sometimes carefully suppressed, and partly to definite teaching on the part of their philosophers and historians, who have confirmed and fertilized the original Teutonic instincts.

For what but that these high priests of Kultur have taught their countrymen? The historians have devoted all their efforts to proving that the German race is superior to all others; the philosophers have taught the weight of their erudition to prove that power means success, and that right is to be interpreted only in terms of might.

German civilization has been wholly based on materialistic foundations, and it is one of the most permanent lessons of history that when a people is solely occupied with aims of power, materialism, all the tendencies towards mercy and kindness and good fellowship are withered and disappear. The report of Mr. Justice Younger's committee is only one proof added to countless others that in dealing with our enemy we must not assume that he is guided by motives any more similar to our own.

When he has said, the only way to deal with him is by "force, the most force." If he has a deadly poison, he may be eradicated from Europe, and a future prepared more consistent with civilized and humanitarian standards.

Bellevue Happenings

Bob Levitt is visiting friends here for a few days.

Mr. Eaton is spending a few days with friends here.

Luke Ludke has returned from a few days' stay at Edmonton.

Mr. and Mrs. R. Brown are spending a few days in Calgary.

Miss M. Brown spent a few days in Lethbridge and returned home on Saturday.

Mr. and Mrs. Fred Henson are visiting friends in Blairmore on Sunday last.

Mr. James Blakeley is spending the summer with his parents in Saskatchewan.

Messrs. D. Hutton and B. Iyden have taken out themselves automobiles of a late type.

Herman Varley and family left this week for Vancouver, where they intend residing in the future.

Red Chappell and family left this week for Calgary, where Mr. Chappell has secured a position.

Miss McIntyre, who had been visiting her sister, Mrs. Perry, at Foremost, returned home this week.

Mrs. Cormier and children arrived here during the week to join Mr. Cormier, who is engineer at the Bellevue mine power-house.

George Pattinson and family left on Tuesday for Winnipeg, where we understand Mr. Pattinson has secured a position with the Winnipeg Fuel and Supply Co. J. Delout has leased Mr. Pattinson's residence near the lime kilns here.

William Fisher, who has been ill for some considerable time, was removed to the Coleman hospital this week to have an X-ray picture taken to ascertain the extent of complications of his troubles. We understand that he is showing no signs of improvement.

Bellevue and District Horticultural and Industrial Club.

Rules, List of Classes and Officers For Season 1918.

President—W. H. Chappell, Sr.
Secretary—G. McKean.
Treasurer—J. Higgins

1. That this Club be called The Bellevue and District Horticultural and Industrial Club.

2. That the yearly subscription be \$1.00 per member and such levies that may be necessary to successfully carry on the society.

3. That the General Meetings of the Club be held on the first Tuesdays of each month, and that notices be posted as to the time and place of meeting, etc.

4. That the Executive Committee shall consist of 15 members, and the President, Secretary and Treasurer of the Club.

5. That a quorum shall consist of 5 members and 2 officials.

6. That the proposed rules shall govern all Exhibitions and Competitions.

a. The entrance fee shall be 10¢ per exhibit in each class.

b. All entries to be made in writing to the Secretary of the Club, on or before the day of Exhibition.

c. No prizes shall be awarded unless there is one more entry than prize.

d. All exhibits must be in place by 9 a.m. the day of Exhibition.

e. Exhibits must be property of the Exhibitor. Produce must be grown by the exhibitor. Home grown fruits and vegetables for preserves, canned goods, etc., must be made in the establishment of the person exhibiting and classed by itself and by themselves.

f. Imported fruits and vegetables for preserves, canned goods, etc., must be made in the establishment of the person exhibiting and classed by themselves.

g. All vegetables must be clean, sound and properly prepared for exhibition. Failure to do this renders exhibits liable to disqualification.

h. The entry of each exhibit, a card will be furnished the exhibitor, specifying the class, definition and number of entry, which card must remain attached to the exhibit during the exhibition.

i. The Club Officer in charge will direct the placing of all exhibits, and exhibitors must strictly obey the instructions given by such officer. The Club is responsible for having all entries in class shape at the time.

j. Exhibits shall, not in any way be allowed to carry labels which may identify their ownership.

k. No person shall act as Judge in any class in which he exhibits or in any class in which he is interested for his own benefit. Judges shall hand in their awards in writing, properly signed, to the Secretary before leaving the grounds. Each Judge shall ascertain from the Secretary whether there are any protests.

l. The Club Officer in charge will direct the placing of all exhibits, and exhibitors must strictly obey the instructions given by such officer. The Club is responsible for having all entries in class shape at the time.

m. All protests must be lodged with the Secretary, in writing, within four hours after the awards have been announced. The decision of the Director in all matters designated under these rules shall be final. A deposit equal to the value of the first prize of exhibit under protest, is required. All deposits not refunded if the protest is sustained.

n. In addition to the stated premiums offered in the prize list, the Judges may recommend additional premiums that they may consider worthy, and the Board of Directors will then determine whether such premiums shall be awarded, and the amount of same. Judges may also designate such exhibits as they consider deserving of notice, but which have not received prizes, by placing "honorary" or "highly commended" or "Commended."

o. In the absence of competition in any section, or if the articles exhibited are of inferior quality, the Judges shall have power to award only such premiums as they consider merited. The Judges shall exercise such discretion as to whether they shall award 1st, 2nd, 3rd, or any premium.

p. Growers are heartily invited to exhibit such productions not specially mentioned in the prize list, but which are likely to be of interest as novelties or for any other cause. The Club does not undertake to vote awards for such exhibits, but in such cases where the exhibits are recommended for awards by the Judges, the Directors may grant extra awards of such amounts as they decide.

q. Any person who will attempt to interfere with or influence the Judges while in discharge of their duties, or who shall at any time on the premises of the Club, use any contentious or abusive language to any Judge in consequence of any award made by him, shall forfeit his right to any and all premiums to which he might otherwise be entitled, and may be excluded from exhibiting for one year thereafter. Judges are particularly requested to immediately report any breach of this rule.

The 'Enterprise,' Blairmore

Upon the discovery of any fraud, deception or dishonest practice either in the preparation, ownership, or of any representation concerning any article of exhibit, which may have affected, or have been intended to affect the decision of the Judges, the Board of Managers have power to withhold the payment of prize money, and may also prohibit any such party or parties from exhibiting for one or more years, and may also publish the name or names of such party or parties, or not, as may be deemed most expedient.

The Board of Managers will use every precaution in their power for the safe preservation of the articles on exhibition, but will not be responsible for loss or damage. Exhibitors must give attention to their own articles during the fair, and at the close of the Exhibition attend to their removal.

Should there not be sufficient funds on hand to pay prizes in full, all prizes will be paid pro rata.

Any person handling exhibits, or moving prize tickets after having been placed there by the Judges, shall be liable to prosecution.

All prize money for exhibits, will be paid by the Secretary only, within two weeks after the exhibiting.

Warwicks Famous for Harmony

Opening Chautauqua Attraction Brings Two Programs of Splendid Music

The Warwick Quartet, which comes to Chautauqua on the opening day, has been given this place of prominence because of their worth. Four young men, filled with life and enthusiasm, brimming over with music, constitute this splendid company. For several seasons they have been singing together and their record is one of continuous successes. They sing all manner of songs and sing them well. Their programs have sparkle, color and variety, featuring solos, duets, instrumental numbers, readings and sketches. No matter what sort of music you like, you will find something to please and delight you in these two programs by the Warwicks.

Although Newfoundland is supposed to be bone-dry, they still permit people to be "admitted to the bar" in that country.

Lives of great men all remind us, that we will if we are wise, leave our modesty behind us, and get out and advertise.

Village gossip had it that the Quigbys were not incompable when Aunt Jemima was gathered to her fathers.

The immediate cause of the wealthy aunt's demise was that a careless servant-girl had given her a dose of oxalic acid in place of a harmless dose.

But it was thought that the Quigbys carried the matter a trifle too far in their selection of an epitaph upon the tombstone they put up. It was:

"Well done, thou good and faithful servant."

It Pays To Advertise

Local and General

To sit, 19,360 recruits were added in June to the Canadian expeditionary forces.

Young ladies are wondering if stockings are to come down with the lowering of shoes.

Mrs. S. Knapton and children arrived from Lethbridge on Thursday morning to spend the summer in Blairmore.

Employees of the Dominion Express Company, all over Canada will receive an increase in their salaries of thirty-five per cent, taking effect from May 1st last.

Mike Podolichuk, the 14 year-old boy who was found guilty of manslaughter for killing an aged lumberjack, Louis Marois, at Mile 93, Greater Winnipeg, Water district, was sentenced to a term of five years in the reformatory.

John Edward Spoke, 15 years old, has been sentenced by Justice Metcalfe at Winnipeg to be hanged on September the 27th for complicity in the murder of Constable Bernard W. Snowden, in Rorenbay's Hardware store on Main Street on April 5th last.

The union of Sunday schools took place at the Union church on Sunday morning last, where a large audience of children and older folks were present. The meeting was addressed by Rev. J. P. Westman, of Calgary, secretary of the federation of Sunday schools for the province.

Legislation providing for practically absolute prohibition during the war was reported to the United States senate on Monday, by which the sale of distilled spirits, beer and wine, except for export, would be prohibited after January 1st next, and that manufacture of beer and wine be stopped after November the 1st.

Dr. Edward Rumely, vice-president and treasurer of the Mail and Express Company, publishers of the New York Evening Mail, was arrested in New York on Sunday night, charged with perjury in a report to A. Mitchell Palmer, alien property custodian. The attorney-general charged that Rumely purchased the stock of the Mail and Express in June, 1917, from Henry L. Stoddard, and that in doing so he acted on behalf of the imperial German government. The complaint against Dr. Rumely charges that in making a report to the alien property custodian regarding the transaction, he failed to disclose his relations with Count von Bernstorff, German ambassador to the United States, and Dr. Henrik F. Albert, commercial attaché of the German embassy.

The approaching exhibition to be held at Bellevue under the auspices of the Bellevue and District Horticultural and Industrial Club promises to be of very great interest. Elsewhere in this issue we give an outline of the rules and regulations of the Club, also list of subjects for competition. Many surprises are in store for those who never before attempted to test the horticultural or agricultural possibilities of the Crow's Nest Pass. For years we have lived in this garden of the woods and wondered how even the trees and wild vegetation could thrive; but now we find that opportunities are open for the industrious lover of nature to produce garden truck that will compare with anything in Canada. During the past week we had occasion to view cucumbers of young growth weighing upwards of two pounds each, while in the same patch they were to be found weighing considerably over three pounds. Other vegetables of the delicate variety have been grown to mammoth proportions, and the experiments are indeed satisfactory. The exhibition takes place at the Bellevue school on September the 1st-Labor Day. Already a large number of entries have been made, and the event will be one of the most interesting attractions ever held in these parts.

Local and General

Mrs. Winstanley, of Fortie, is visiting her daughter here, Mrs. H. J. Benson.

The Austrians have been cleared completely from the right bank of the new Plave.

A typographical error in one of our exchanges makes Panama Canal read Pajama Canal.

The local basket-ball teams have been organized, and may be expected to invade Bellevue or Coleman territory in the near future.

Fraser McLeod and party returned to Coleman last week end from Calgary, where they had been taking in the sights at the exhibition.

Inspector Piper, of the provincial police, has been promoted to the rank of assistant superintendent, and will have headquarters at Edmonton.

Dr. J. C. Miller has declined to accept the appointment to the chair of technical education in the University of Minnesota, which was offered him a few weeks ago.

The famous Buck ranch, near Raymond, has been sold to the Pilling Land Company, of Lethbridge, for \$200,000. The property comprises four thousand acres.

Sunday School Teacher: "Can any of you tell me in what manner Lot was favored?"

Little Charles: "Yes, miss, I can. The Lord turned his wife into a sack of salt."

Banana crops in this neighborhood were hit by the heavy frost of the early part of last week. Potatoes were also blighted, and there is very little prospect of any of them recovering.

Alien-owned property valued at millions of dollars will soon be put up on the market at a series of public sales now being arranged by officials in the office of the United States' alien property custodian.

No alcohol or drugs may be possessed, given away, used or carried

through the Panama Canal zone, according to an order issued at Ancon by the American military commander. The order affects the American garrison, 6,000 civilian Americans, and 30,000 West Indians.

"Faith?" said the youngest.

"No," said his sire, "if it's only mair of yer stooped questions, awa' ye gang. I've telt ye 'ready that I dinna ken whether a man who does guid is a guid-dooed or a do-guider, or whether the seat o' war is what the standin' arm'aitedoon on. It's a reddeous question of that kind, awa' ye gang to bed!"

"But, paw, it's a serious question."

"Weel, noo wi' it!"

"I want to know, paw, what the Dead Sea died of?"

"Awa' to bed wi' ye!"

The belief seems to be widely held that at a certain depth an iron ship or any iron object will remain suspended, floating about and never touching the bottom. Those who believe this evidently confuse weight and pressure. A body sinks in a fluid when it weighs more than the fluid which it displaces, which evidently has the same volume as the body. For this reason any heavy body will go to the bottom in water, since water is nearly incompressible. An engineer of high repute recently took exception to this statement, asserting that at a depth of 34 miles water would be as dense as cast-iron and therefore cast-iron would float at that depth. As a matter of fact, water at such depths is frozen solid in the dense form of ice, frozen by the water above it.

Intelligent Government Of Municipalities Vital

Victoria, B.C., July 9.—The people and intelligent government of municipalities is of far greater importance to the building up of Canada than either the Provincial or Federal governments," said President W. D. L. Hardie, mayor of Lethbridge, to the Union of Canadian municipalities this morning, at its opening session. "These bodies are closer to the people and represent more truly than any other government, the calibre of the citizens who make up the population of a great state."

These remarks were made in connection with the presidential address to the delegates, when they commenced the sessions of the convention. Mr. Hardie went on to say:

"If we encourage earnest, capable men and women and overlook their minor mistakes there will be no question of

drawing the very best men in any community into civic life. There is, however, one viewpoint, which I am concerned with all the time I am able. In the field of civility in cities and consequently the field of civility in Canada, the municipal government is the most important form of civic government on that subject in Great Britain, but we have not followed it to its logical conclusion by having well trained and capable permanent civic officials."

The president pursued this argument by pointing out what steps had been taken to control municipalities in Great Britain and to direct them along proper lines and pointed out that the public utility commissions of this country were a beginning of the same principle, but unfortunately the policy had not been to select experienced municipal men, but the persons chosen for political considerations.

SUPREMACY OF WAR IN THE SILENT OF THE ALLIED ARMIES DISPLAY STEADFAST COURAGE

Are Resolute in the Determination Not To Sacrifice a Single One Of the Free Nations Of the World To the Despotism Rule of Kaiserism

The supreme war council, which has had under advisement the entire war situation, has expressed in an official statement made public, full confidence in the outcome of the war with the aid of the American forces. Complete confidence in General Foch is also expressed, and thanks are extended to President Wilson for his co-operation in the United States can bring its full American troops.

"The supreme war council held its sixth session under circumstances of great gravity for the alliance of free peoples," says the statement. The German government, relieved of all pressure on the eastern front by the collapse of the Russian armies and people, has concentrated all its effort in the western front, seeking to gain a decision in Europe by a series of desperate and costly assaults upon the allied armies before the United States can bring its full strength effectively to bear.

"The advantage it possesses in its strategic position and superior railway facilities has enabled the enemy to command to great success the success. It will undoubtedly renew its attacks, and the allied nations may be still exposed to serious danger."

"After a review of the whole position, the supreme war council is convinced that the enemy is trying to take the trials of the forthcoming campaign with the same fortitude as they have ever shown in the defense of the right, will baffle the enemy's purpose and in due course bring him to defeat. The supreme war council is being done to sustain and support the armies in the field. The arrangements for the allied armies have greatly improved the position of the allied armies and are working smoothly and with success. The supreme war council has complete confidence in General Foch. It regards with pride and admiration the valor of the allied troops."

"Thanks to the prompt and cordial co-operation of the president of the United States, the arrangements which were set on foot more than two months ago for the transportation and bridging of American troops will make it impossible for the enemy to gain victory by wearing out the allied reserve before he has exhausted his own."

"The supreme war council is confident of the ultimate result, and the allied peoples are resolute not to sacrifice a single one of the free nations of the world to the despotism of Berlin. Their armies are displaying the same steadfast courage which has been shown on many previous occasions to defeat a German onset. They have only to end with faith and courage to the end to make victory for freedom secure."

"The free peoples and their magnificent soldiers will, save civilization."

Hail Losses

Baskatchewan's Experience Better in 1917 Than in 1916

Losses paid last year by the Saskatchewan Municipal Insurance Association were \$1,824,362, compared with losses of \$1,650,000 in 1916, of which, however, only 40 per cent, or \$1,460,200 was paid. Administration claims were \$1,650,000 in 1917 and \$594,068 in 1916. The 1917 revenue was \$930,799 or about \$50,000 less than the previous year.

Losses were comparatively light until after the middle of August, when a heavy storm swept over the central section of the province. At a convention of the Insurance Association held in Moose Jaw last month, motions to increase the rate from four to five cents per acre were defeated, but it was resolved to adopt the flat rate of four cents per acre, but under an automatic seeded acreage. Under the latter scheme all municipalities will come under the Municipal Insurance Act, but any farmer may withdraw upon giving notice to the secretary-treasurer of the municipality prior to June 1 in any year.

At the convention, E. G. Hingley, secretary of the association, is reported to have admitted that the system of municipal hail insurance at present in use was not a real insurance but merely a pooling of funds from which claims were paid, providing there was sufficient money on hand and that it is impossible to guarantee complete insurance for the present flat rate.

Charlie Chaplin in Heaven

Billy—Do actors and actresses go to heaven, pap?
Father—Yes, Billy; some do.
Billy—Do movie actors go as well, pap?
Father—Oh, yes; quite a lot—that is if they are good.
Billy—Oh! If Charlie Chaplin's good, won't God laugh when he walks in?

Endures It

Lady of House—Don't you ever get tired of doing nothing?
Tramp—Oh, yes, mum; but I never complain. Motion Transcript.

Canada Saving Wheat

Review of Some of the Measures Taken to Provide Supplies For Our Allies

All Canadian flour mills are now producing 190 pounds (barrel) of flour from 235 pounds of wheat. Manufacture of patent flour has been prohibited. The United States mills are using 264 pounds of wheat to produce a barrel of flour. The supply of available substitutes has been greater than in Canada and persons have been required to buy substitutes to an equal weight of the wheat flour which they purchase.

"As a result of arrangements made by the Canada food board, Canadian mills are now using 8,000 bushels of corn per day in the manufacture of corn flour. The capacity of the mills for grinding corn is being rapidly increased, and is very soon expected to reach 20,000 bushels per day. Manufacture in Canada of farina (or Cream of Wheat) has been prohibited. Manufacturers of breakfast foods and pastas, however, whose products formerly consisted largely of wheat, have been obliged to substitute other grains in part, and largely to curtail their use of wheat. The sale of wheat or flour in the United States has been prohibited. The use of wheat in making candy has been prohibited."

All the bakers are required now under regulation of the Canada food board, and their use of wheat flour is being controlled. They are required to use substitutes for wheat flour in the case of soda biscuits at least 10 per cent. of substitutes must be used.

Canada is saving bread and other wheat products by strict compulsory regulations, applied to restaurants, hotels, many hotels, restaurants, etc., have gone farther than is required by the regulations, and have substituted for wheat flour to the greatest possible extent.

A far-reaching educational campaign for decreased consumption of wheat and wheat products has been carried on. This has included posters for increased use of vegetables in order to save wheat.

Holdings of flour have been strictly limited and persons having in their possession larger quantities than are permitted by the Canada food board are required to surrender heavy penalties to return such excess.

Huns Caught In Their Own Trap

They Mistook Own Aviators for a British Patrol

This is the story of a battle royal waged in the air between two squadrons of German planes.

It was an unintentional but disastrous fight, between two squadrons during which British pilots joyfully and impartially rendered assistance to the enemy. The German planes, until so many of the emperor's machines had been damaged that the conflict was not worth the effort.

It was on June 5 that the extraordinary engagement occurred and it began thus:

Two British officers in a fighting machine were leading a patrol along the line when they were overtaken by a German two-seater, which on their appearance, fired a green signal light. The leader of the patrol wanted to see what this unusual performance meant.

In a short time, six German scouts diverged out of the sun into their comrades, whom they apparently mistook for a British patrol about to attack. What happened was this:

"The Haterstadt had been acting as a decoy, and the green light had been meant as a signal for assistance, but there had been no expectation that two flights of German planes would respond at the same time."

"Not being able to distinguish the marking of their friends—and this was not infrequently the case—the newcomers began a furious attack on them. The British leaders then guided their patrol into the melee and took a hand. The Haterstadt was the first victim. The German planes were continuing their bitter battle among themselves, and several of them were seen to go down out of control before the engagement finally ended. The British leaders, by their good judgment had led the Huns into their own trap."

Unlicensed Eating Houses Illegal

On another Saturday, when the Haterstadt was acting as a decoy, the British leaders then guided their patrol into the melee and took a hand. The Haterstadt was the first victim. The German planes were continuing their bitter battle among themselves, and several of them were seen to go down out of control before the engagement finally ended. The British leaders, by their good judgment had led the Huns into their own trap."

On another Saturday, when the Haterstadt was acting as a decoy, the British leaders then guided their patrol into the melee and took a hand. The Haterstadt was the first victim. The German planes were continuing their bitter battle among themselves, and several of them were seen to go down out of control before the engagement finally ended. The British leaders, by their good judgment had led the Huns into their own trap."

One could hardly imagine a more revolutionary proceeding in the life of a home than to chop up the household gods and build fires with them. Yet this is what is happening in many places today under the influence of Christian teaching. Some time ago a progressive citizen of a town in Central China told his neighbors that it was absurd to worship the idols in the Buddhist temple. After a number of others were convinced that he was right, they took community action and transformed the temple into a workshop and the idols into stove wood. Even an American missionary took part in the feast in which the meat was cooked over burning idols.

Gathering Up the Scraps of War

Often Enough Work Has to Be Carried on Under a Terrific Bombardment

Upon the terrible fields of war, there is nothing any longer but the waste of human life, that produces a more painful impression on the occasion of a battle than the sight of a dead battlefield just after an attack than the great quantities of material that are scattered about with seemingly reckless profusion.

All this material was made through long hours of sweat and labor and toil to be used in saving the country, and here it is lying in the open, a waste of human life, that produces a more painful impression on the occasion of a battle than the sight of a dead battlefield just after an attack than the great quantities of material that are scattered about with seemingly reckless profusion.

Hardly have the troops passed forward in an attack than a second arm of the enemy is seen, following it on to the battlefield and forcing the cleaning up process.

Sometimes the companies called them the "rack pickers of the army" and sometimes the "divers for the sea." The German official organization of the army ranks as a very important corps.

Their work too is often dangerous as the enemy troops who dash to the assault, as not only have they to handle abandoned explosives of the most perilous kind, but they are often enough their work has to be carried on under a terrific bombardment.

But they do it as heroically, as stoically and as methodically as do their brother front-line troops who carry the enemy's weapons and fight through a barrage of machine gun fire, shrapnel and high explosives.

Most dangerous are the unexploded German shells which lie scattered about. They may explode at the first human touch, but nevertheless they are the most dangerous of all the material that is scattered about.

Then come the hand grenades. These may have been abandoned, or forgotten by the troops who have left them. They may explode at the first human touch, but nevertheless they are the most dangerous of all the material that is scattered about.

HEAVY SACRIFICES MADE FOR A GREAT PURPOSE AND HIGH IDEAL

HAMMER BLOWS THAT STRENGTHEN GOOD METAL

Premier Lloyd George Points Out That If, For Any Cause, the Allies Fail To Succeed, This Will Be a Sorry World To Live In, Under Domination Of the Hun

The Daily Chronicle's Paris correspondent says that the long range cannon with which the Germans are bombarding Paris, were invented several years ago. A model was shown to an American general early in 1914 by Frau Bertha Krupp von Bohlen and Lubow, principal owner of the Krupp works, Heretel.

The gun, says the report, was shown to the Americans when he visited Essen on an official mission. He had been taken all through the visit Krupp works escorted by a team of technical experts and was about to retire when Frau Bertha dismissed all the party except two or three members of the firm, and with the latter conducted the general to a secret room.

Here the visitor's attention was attracted by two immense cannon which, although long and relatively small in diameter, Frau Bertha said, were excellent English. These are the guns you ought to order for the Panama Canal defence. They carry ninety miles, are guaranteed and cost \$240,000 each. Of course, these are only trial guns and cannot be more than 20 to 25 shells without being repaired. But you can appreciate the infernal results which will be obtained by the action that first employs such guns."

Here the visitor's attention was attracted by two immense cannon which, although long and relatively small in diameter, Frau Bertha said, were excellent English. These are the guns you ought to order for the Panama Canal defence. They carry ninety miles, are guaranteed and cost \$240,000 each. Of course, these are only trial guns and cannot be more than 20 to 25 shells without being repaired. But you can appreciate the infernal results which will be obtained by the action that first employs such guns."

New Members Adapting Themselves to Army Discipline

The difficulties experienced by new members of the British army, especially the privates, in adapting themselves to army discipline will one day, surely open up a field for a delightful collection of stories.

The tale of the Irish private who, after a certain amount of time, was found to be a well-known, as is that of the recent who, meeting an officer and failing to salute him, gave an excuse that, as the officer had severely reprimanded him the day before, he understood they were not on speaking terms.

One of the latest concerns an Australian officer, a new arrival. "Don't you know," said he to an old friend, "you ought to wear your hat here." "No," said the private, "nobody told me that." "You came over with one of the late drafts, I suppose," said the officer. "Oh, no," drawled the other, as a matter of course, indulging in a nice irony, as he eyed the terribly new uniform of the subaltern. "I didn't wait for one of the late drafts, I came along with the first push."

Naturally "Do you wish to show me your references?" "No, mum, I came for my wages." "So, I get you cooks mixed up so. Half the time I can't tell whether you are going or coming."—Louisville Courier-Journal.

Crop Acreage Increased

The acreage under cultivation at the Gums Colony in Alberta, this year is at least fifty per cent greater than that of last year. Irrigation farming is practiced at Gums.

An Opinion For Ireland

Only One View Prevalent as to the Present Situation

If, as is indicated by despatches from Dublin, all Ireland awaits the opinion of the United States concerning political conditions in that country, we think it may be given without hesitation.

There is full recognition here of every expression and every blunder of the British government for generations past in dealing with Irish affairs, but, aside from a small and venomous group of agitators, only one view prevails to the present situation. Neither home rule nor party and race prejudice can be pleaded in justification of resistance to the war.

What valiant Irishmen all over the world are doing to defeat a predatory autocracy ought to be a sufficient answer on this point to every Irishman in Ireland. Between Dublin and London many scores remain for settlement, but until Irishmen no longer know how to live under the heel of a German master, what do these scores matter?

John Dillon puts the case plainly in only one of its aspects when, in behalf of the Nationalists he appeals to the United States to support the one party in Ireland which is fighting for Irish liberty without betraying the cause of liberty in other lands. —From the New York World.

Having a Whack at War

Canadian Had Chance of Two Big Guns and Knew How to Use Them

The following article has been received from Roland Hill:

Up and down this hard-fighting front you find Canadians in unexpected places. Today met a major in command of two of the latest big guns, mounted on railway trucks, manning a way at a German base. He had been all through the present battle and both of his pets are still in fine shape. The major came over with a Winnipeg battalion. He was engaged in educating the Hun in Manitoba, and knew nothing about gunnery, but he was not going back without a trophy which he had won, though he knew nothing about gunnery, he did know a lot about mathematics, and when it gets to the order the whole system clogs in sympathy. The spirit flag, the mind and the body, and he became a little bit of a philosopher. The first care should be to restore healthful action of the stomach, and then to get the body into shape. For that purpose is Parmenter's Vegetable Pills. General use for years won't be of much use, but a trial will attest their value.

Clean Stomach, Clear Mind.—The stomach is the workshop of the vital functions, and when it gets out of order the whole system clogs in sympathy. The spirit flag, the mind and the body, and he became a little bit of a philosopher. The first care should be to restore healthful action of the stomach, and then to get the body into shape. A Gentleman Unafraid

The "polo" is one-third heroism, one-third guts, and one-third modernity. A stretcher-bearer blew up a bridge himself, and, delayed the German advance. The general decided to award him the Military Medal. Summon the man at once, and I will decorate him here," said the general. Ordinarily to look for the stretcher-bearer but up to the front he found Nobody even knew his name. He was merely a French soldier!—Westminster Gazette.

Minard's Liniment Cures Diphtheria.

Development of the West

Pronounced Progress in Permanent Farming in Areas Settled by the C. N. R.

A remarkable increase during 1917 in handlings of live stock and of butter, cheese, eggs, dressed meat, and dressed poultry, ever by line in Western Canada is indicated in a statement compiled by the freight department of the Canadian Northern Railway. Any great increase in tonnage in these commodities, of course, could not be accomplished without pronounced progress in permanent farming in areas served by the C. N. R. in Manitoba, Saskatchewan and Alberta. It is significant that the prairie provinces are becoming exporters of dairy products, where in recent years they were importers on a considerable scale.

During 1917, 133 cars of live stock were handled over the lines of the Canadian Northern Railway system as compared with 7,245 during 1916. This represents an increase of 4,113 cars or 57 per cent.

Of cattle in 1917, there were handled 241,421 head, as against 200,000 in 1916. Of hogs 2,274 cars, as compared with 1,768 in 1916. Of sheep 1,917 cars, as compared with 1,501 in 1916. The percentage increase in live stock was 87 per cent; of sheep, 243 per cent; of hogs, 29 per cent; and mixed stock, 57 per cent.

During 1917 the produce shipped from stations on the Canadian Northern western lines reached a total of 24,618,000 pounds as compared with 21,346,000 pounds in 1916, an increase of 3,172,000 pounds or 15 per cent. The butter shipped amounted to 8,146,000 pounds as compared with 6,826,000 pounds in 1916, an increase of 1,320,000 pounds. The cheese shipped totalled 1,072,000 pounds as compared with 780,000 in 1916, an increase of 292,000 pounds. Eggs, in 1917, amounted to 5,980,000 pounds as compared with 5,000,000 in 1916, an increase of 980,000 pounds. Dressed meats handled over the lines amounted to 9,108,000 pounds in 1917, as against 7,864,000 in 1916, an increase of 1,244,000 pounds. Dressed poultry shipments totalled 332,000 pounds in 1917, as against 282,000 in 1916. The percentage increase for butter handled was 19 per cent; for cheese 37 per cent; eggs 5 per cent; dressed meat 16 per cent, and dressed poultry 18 per cent.

Clean Stomach, Clear Mind.—The stomach is the workshop of the vital functions, and when it gets out of order the whole system clogs in sympathy. The spirit flag, the mind and the body, and he became a little bit of a philosopher. The first care should be to restore healthful action of the stomach, and then to get the body into shape. For that purpose is Parmenter's Vegetable Pills. General use for years won't be of much use, but a trial will attest their value.

A. A. Shearer, Blainmore

OF LOCAL AND GENERAL INTEREST

W. McD. Tait, of Calgary, was in town during the week.

C. P. Nelson is this week repairing the roof of the Blainmore Hardware building.

Austrian losses in the recent battle against the Italians are estimated at 250,000.

Miss Clark, of Calgary, was a visitor with Mrs. Drummond at Frank over the week end.

The annual picnic of the Anglican Sunday school was held at Burns Creek on Tuesday afternoon.

D. R. and Mrs. McIvor and children, of Cowley, were in town on Sunday last and were guests of Dr. and Mrs. O. Lillis.

Many divisions of German troops are reported detached from the front in France, and are being rushed to the aid of the Austrian army.

A man down in Bangor, Maine, was fined \$100 the other day for kicking a barrel of whiskey. But it's seldom the whiskey pays a fine for administering kicks.

The American army transport Covington, homeward bound, after landing several thousand soldiers in France, was torpedoed and sunk in the war zone early last week, with a loss of six members of the crew.

A returned prisoner of war in Germany released the story of how his life had been saved, by the fraternal spirit of Free Masonry, says an exchange. The soldier had been condemned by the Huns to be shot, and at the last moment he gave the S.O.S. sign to the officer in command of the firing party, who instantly stopped the execution.

The local customs officials are figuring on the valuation of a beautiful gold ring which adorns and magnifies the finger of a young lady who recently paid a visit to points down east. And the town council is considering the bringing about of legislation whereby this property may be assessed. A local doctor says that the ring represents a bad omen.

Of remarkable coincidence revealed by the war, this one, we think, will be hard to beat. A girl whose fiancé was asked by him to send out a photograph of her soldier brother, forthwith sent one taken in a Yorkshire town a year ago. It was a snapshot of the brother, and a V.A.D. nurse who had been specially kind to him while undergoing convalescent treatment there. This was forwarded to a base hospital, where the girl's fiancé was recovering from a wound received in the recent offensive. On its receipt the wounded soldier was amazed to see that the nurse in the photo was the one tending him at that moment.

The other day an inspector of the Ontario License Board saw two fine looking pedestals made of a plaster of paris composition at the station in Timmins, Ont. The pedestals were got up quite fancy, and made a good appearance. However, the eye of the inspector noticed something tripping out of one of the pedestals; this aroused his suspicions and he examined further. His surprise can be imagined when he opened the pedestal and found in the inside a five gallon tin of high wines. A similar quantity of wine was found in the other pedestal. The liquor was confiscated, the inspector was unable to locate the man to whom it was consigned and he failed to appear to claim his property. Now the License Board is tracing the shipment back to Montreal to find who were the consignees.

Dr. Connor and wife, of Lethbridge, spent a couple of days in The Pass last week end.

Mr. and Mrs. J. J. Murray, of Frank, and Miss S. McCole, left the early part of the week to spend a few weeks in camp.

COLEMAN TOWN BAND—Music for Dancing. Any number of players supplied. Apply to G. Beedington, secretary.

Some people are so eager for titles that they have gone out in B.C. to dig for fossils in order to be classed "paleontologists."

A recent government conservation circular advises us to "dispose of old hens," and that's just what the Blainmore school trustees have been trying to do for years.

At the regular meeting of Blainmore Lodge, I.O.O.F., on Tuesday night, the officers for the ensuing term were installed by D.D.G.M. Bro. Fraser McLeod, of Coleman.

The marriage of Mr. Charles Guimette, son of W. L. Guimette, of Coleman, to Miss Leona McPherson, of Springhill, N.S., was solemnized at Coleman by the Rev. D. K. Allan on July the 7th.

One of our exchanges, in referring to the death of an alien, stated that "internment" took place three days after his death. Of course, that's almost the Canadian way of doing things.

In a casualty list sent out by the record office of the military department at Ottawa, eighty-nine of the Canadian Army Medical Corps are reported drowned off the hospital ship Llandovery Castle.

Approximately one hundred and fifty people were drowned or trampled to death on the night of July the 6th, when the excursion steamer Columbia, carrying more than 500 persons, struck an obstruction in the Illinois river near Peoria and sank.

A meeting of automobile and Ford owners, held in the Crows' Nest Pass Automobile Association rooms on Monday evening last, it was decided that, weather permitting, the Club would offer the patients of the Frank Military Hospital an outing every two weeks during the summer months, commencing with Wednesday next, the 17th.

A blind man played a billiard match recently against a man with sight, and scored 62 points in 1 hour 40 minutes. The blind player was Sergt. Shaw, late of the Princess Patricia's Regiment, who lost his eyesight in the second battle of Ypres. The stranger thing was that, although he advanced his hand to locate the exact place of the balls, he only two or three times actually touched a ball. He said that he could sense the ball, just as anyone in a dark room could tell by the "feel" on his face when he is close to a wall. He described it as feeling a coldness. His highest break was nine.

APPLICATION FOR LEASE OF
ROAD ALLOWANCE OR
SURVEYED HIGHWAY

NOTICE IS HEREBY GIVEN that GEORGE VEZZONI, of Blainmore, has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance or surveyed highway, to-wit:

The original road allowance adjoining the North Boundary of the North-East 1/4 Section 36, Township 7, Range 3, west of the 27th Meridian.

Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

DATED at Blainmore, Alberta, the 13th day of July, 1918.

GEORGE VEZZONI,
Applicant.

In Europe since the war began lack of food has caused more deaths than bullets.

Miss Mary Kafoury is attending the summer school at Coleman this week.

Miss Marjorie Powell, of Taber, is the guest of Miss Beck at Coleman for a few days.

Rev. Thomas Powell, of Calgary, will be the preacher at the Central Union church on Sunday evening at 7.30.

Hugh Rose, a nephew of Dr. T. A. Rose, of Coleman, was killed in a motor-cycle accident near his home at Montreal.

John Desjardins, of Coleman, climbed to the summit of Crows' Nest mountain on June 24th, where he found records of other parties having "gone over the top" at different periods since 1904.

R. T. Lowery says: Out the booze-out in England and there will be more grain for bread. There are 5,000,000 dogs in Great Britain. These should be killed and made into sausage and other delicacies.

Mrs. Chapman, mother of Mr. Mark Drumm, of Frank, left for Ritzville, Washington, on Tuesday morning, where she enters an institution for special treatment for rheumatism. She was accompanied by Mrs. J. M. Carter.

At the annual meeting of the McGillivray Creek Coal and Coke company, held at Coleman, Alta., recently, Lorne A. Campbell of Rossland, B.C., was re-elected president, J. A. Newell of St. Paul, Minn., vice-president, and C. B. Smith secretary-treasurer. The officers, with Henry L. Simons of Glencoe, Minn., and Fitzhugh Burns of St. Paul, Minn., compose the members of the board of directors elected. Much of the stock is held in Spokane and vicinity.

Rod and Gun for July is a special fishing number, most of the stories relating to the pursuit of the fishy tribe, with just enough variety to make the number of interest to those whose allegiance to the piscatorial art is divided among other outdoor sports. The usual departments are well maintained, the Trap department containing an illustrated write-up of the recent tournament of the Dominion Trap Shooting Association at Hamilton; and the Kennel department the list of awards at the London and Montreal Shows. "Sniping in France" by a professional sniper is only one of the fine articles appearing in the Guns and Ammunition section. Rod and Gun is published by W. J. Taylor, Limited at Woodstock, Ont.

A fund of \$10,000 held by a Hartford, Conn., trust company becomes available for Polie G. Miller, of Brattleboro, Vt., through the death last week of a Mexican Chihuahua hound, 12 years old. The animal weighed less than two pounds and was named "Tiny." She was the wealthiest dog in Vermont. Mrs. Mary Frances Snow died in Hartford in 1909, leaving an estate of about \$75,000. Her will cuts off her husband, Dr. Frank D. Snow, but created two trust funds, one of \$25,000 for the care of her horses which have since died, and one of \$10,000, for the care of her dogs. Miss Miller, then of Orange, Mass., was named as custodian of the dogs and was to use whatever of the income was needed to support them, the principal to go to her at their death. She took charge of fifteen dogs, which were given better care than many children receive. "Tiny" was the last survivor.

The C.P.R. are erecting new telegraph poles through this section.

Mayor Cogello, of Calgary, has been elected president of the Union of Canadian Municipalities.

Seventeen parishes in Quebec are reported to have entirely ignored the national registration order.

Will the parties that signed a certain document in April last please call at my office and receive their reward.—A. McIvor.

The officers of Coleman Lodge No. 38, I.O.O.F., will be installed at the regular meeting of the lodge on Monday evening next.

Billy Sunday evidently preferred getting sick to going to France, and is spending a brief holiday at Mayo Bros' hospital at Rochester, Minn.

Messrs. Boll and Hurler, of Calgary, were in town this afternoon, enroute to Waterton Lakes, where a brief holiday will be spent.

President Wilson, by proclamation, has formally taken over the wharves and docks of the North German Lloyd and Hamburg American Steamship Companies at Hoboken.

Ninety-three persons went to their death on the steamer Columbia when it went down in the Illinois river on Friday night last with more than five hundred excursionists on board.

An additional credit of \$10,000,000 was granted to the United States treasury department on Tuesday, making a total, \$600,000,000 for Italy, and \$6,000,000,000 loaned to the allies to date.

Private Smith, a patient at a Frank Military Hospital, died of tuberculosis at that institution last night. Private Smith was a native of New Brunswick, and had been patient at the local sanatorium some time.

The Crows' Nest Pass Automobile Association was not represented at the convention of the motor leagues held at Edmonton this week, and consequently winners of the booby prize offered by the city of Edmonton.

Captain George D. Hunt, a turned veteran who was wound at Vimy Ridge in April, 1917, who until recently was in command of the Frank Military Hospital, has been appointed food troller for Alberta. Capt. H. was formerly news editor of the Edmonton Bulletin.

Orders have been issued by Provincial Attorney General to government liquor vendors not supply liquor to druggists who are reasonably suspected of using for other than medicinal purposes. A case of such kind is reported to have been found in Calgary, where are reported from elsewhere sales to such dealers, put the onus of proof on them to themselves applied to parcel from the vendors.

For the next thirty days I going to offer the greatest bargains in pianos and phonographs have ever been offered in Alberta. The places that I handle are leaders in Canada, a written guarantee for twenty years going and every one. The K. Maria pianos are known the world over. Call at my store room be convinced that my offer is mine. Come and make me a what I say.—A. McIvor, 616 of Sixth Avenue and Via Street, Blainmore.
